

My performance is more than just music it is a platform that transports the audience to those special times in life where they went on their first date, had that first kiss and found true love.

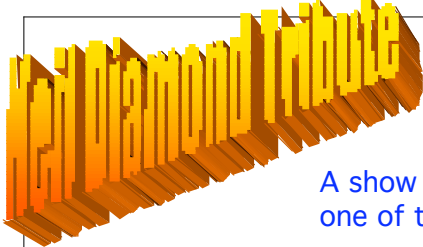

I bring back the smooth easy voices of favorite romance songs they heard in the car and the driving rhythm and dynamic voices of the dance floor. There is something for everyone country, rock, and mellow favorites.

Its no coincidence people like the songs I perform they are the best of the best done in the styling and voices of their favorite artists.

Years have been invested in the act as I developed the voices and learned the nuances of the greats.

I have invested heavily in building a quality act, one that will create new memories, one that will stimulate emotions and open the heart. I hope you will take the opportunity to share with your guests what I believe is a warm and heart filling experience.
