

# Dave Dugan

**“ Comedy customized to fit every corporate event!”**

What makes Dave a unique corporate comedian is his ability to customize original humor to best relate to each event and group. The result is not only a laugh-filled event, but an audience that experiences a performance that is tailored just for them.

**Your event gets the best of both worlds----laughs and relatability!**

Before becoming a corporate comedian in-demand, Dave's unique observations earned him national television appearances on HBO, COMEDY CENTRAL, FOX, THE ARSENIO HALL SHOW, VH-1 and a host of other networks and shows.

He's also been a regular writer, contributor and guest on the nationally syndicated BOB AND TOM SHOW for over 20 years where his Bob Newhart-like everyman victim style has been utilized time and time again!

## The Impostor

Dave also portrays a wide variety of IMPOSTORS. Being introduced as a so-called expert or a new hire in an upper management position with whacked out ideas or even portraying a desperate, pathetic competitor are just a few examples of successful approaches as an impostor ...

*“Your portrayal as Toyota's Newest Dealer was the highlight of our national meeting!”*

*“Introduced as a financial advisor, Dave Dugan handled technical terms that convinced even our toughest CPA's and Bank Executives...An extremely fun and outrageously funny program that kept everyone at National City laughing for a full hour!”*

### MASTER OF CEREMONIES

Dave has hosted everything from awards banquets to international events like the FORMULA ONE BALL (with Andrew and Fergie in attendance) and can play the double role of announcer/facilitator while still keeping the humor alive throughout the event.

### Where have you heard that voice?

With a voice deeper than Bea Arthur's, you may recognize Dave's pipes from numerous national tv and radio commercials and as a regular narrator on ESPN and ESPN 2.

And with extensive experience voicing corporate websites videos, training films, on hold programs, etc....Dave Dugan can be the voice ( or on-camera spokesman) for any of your company projects.

***"Dave Dugan's unique style with clean material, impeccable timing and imaginative angles won points with the audience!"***
